

HARTZELL FAN SUCCESS STORY

“We knew in this tough economy we needed to find new ways to grow our business. Our decision to acquire several lines from a competitor and move them to Piqua was done knowing we would have the full support of the community. We are proud to call Piqua home.”

George D. Atkinson, *President*

Hartzell Fan, Inc.

THE KEY POINTS

- Hartzell Fan acquired seven lines of centrifugal fan products from ACME Engineering and Manufacturing Co. in Muskogee, Oklahoma to compliment its product offerings and support its long term strategic objectives.
- The company has become the industrial ventilation expert producing high qualifying, efficient, and innovative fans and blowers designed to meet the needs of the industrial market place.
- The history of the Hartzell Companies dates back to 1875. Hartzell Fan, Inc. began manufacturing in 1927 and today is a leader in providing axial, centrifugal, fiberglass, cooling tower and heat exchangers, and heating equipment.
