P&R SPECIALTY INC. SUCCESS STORY

"This project will allow P&R Specialty to help meet the growing demand for our products, particularly for large nailed wood reel packaging for power transmission cables, telecommunications wires, industrial wire rope and chain. We are pleased to see our company continue to grow, especially here in Piqua."

Greg Blankenship
President/Owner

Alissa Blankenship
VP/Owner

In late 2012, the company began work on a 14,000 square foot building addition to accommodate the nailed wood reels product line. This will increase the company's total manufacturing space to 114,000 square feet. P&R Specialty, Inc. currently employs 60 team members.

P&R Specialty's current products include: injection molded plastic spools for welding consumables, electrical wire, magnet wire, and fuel line hoses; fiberboard spools for welding consumables; and, plywood reels for copper and aluminum conductor, insulated wire, wire rope, and hoses.

P&R Specialty, Inc. was founded in 1982 and today is a leading supplier of spools and reels in the markets it serves across the United States, Canada, and Mexico.
