

POLYSOURCE SUCCESS STORY

“Our decision to locate our operations in Piqua was an easy one. With its great access to markets, skilled workforce and supportive business climate, we knew we found a location that would help our business grow. We are very pleased to have made such a wise choice.”

Michael A. Cox, *Sr. Vice President & COO*

Polysource, Inc.

THE KEY POINTS

- Polysource, Inc. continues to develop and market its line of expandable polystyrene (EPS) resins from its facility in Piqua. In 2010, the company celebrates 20 years of doing business.
- The company is a leading manufacturer of color EPS resin and specialty EPS co-polymers for the consumer products market, including bicycle, skiing and skating helmets, as well as many other high-tech applications.
- Since relocating to its Statler Road location in Piqua in 2004, the company has doubled the size of its facility and has seen significant increases in both its sales and employment.
